## I. POLICY

Inspections of the department shall be conducted on a regular basis to help ensure that the department is operating at peak efficiency and in compliance with established professional standards. When conducted properly, inspections enable managers to assess the department's ability to perform its mission, and provide them with the information necessary to plan for the improvement of the department's operations and ensure full capability to perform our mission. Inspections are a vital component of departmental self-assessment and as such will be carried out with care, attention to detail, and with the full cooperation of all personnel concerned.

## II. PURPOSE

The purpose of this policy is to establish procedures for conducting inspections of the department's administrative functions, facilities, property, equipment, operations, and personnel.

## III. DEFINITIONS

- A. **Line Inspection.** Line inspections are inspections conducted by the supervisory personnel directly responsible for the person, equipment, or facility being inspected. They are designed to examine, evaluate, and improve the performance of departmental personnel and equipment. A written report is not required for a line inspection unless it reveals a critical problem that should be brought to the attention of a higher command level.
  
- B. **Staff Inspection or audit.** A staff inspection or audit is an objective review of the facilities, equipment, personnel, administrative organization and functioning, operational activities, and programs of the department. Such inspections are conducted outside the framework of normal line inspections by departmental supervisors or managers who do not have direct control of the facilities, equipment, personnel, and activities being inspected. The results of staff inspections are reported in writing to the department's chief executive officer within a reasonable amount of time, together with the comments of those units that have been inspected.

- C. **Readiness Inspections.** A specific inspection conducted to evaluate both equipment and operational readiness of the department to respond to exceptional or emergency circumstances. Such inspections are regularly scheduled but may be initiated at any time at the direction of the Chief of Police or a designee.
